About the product

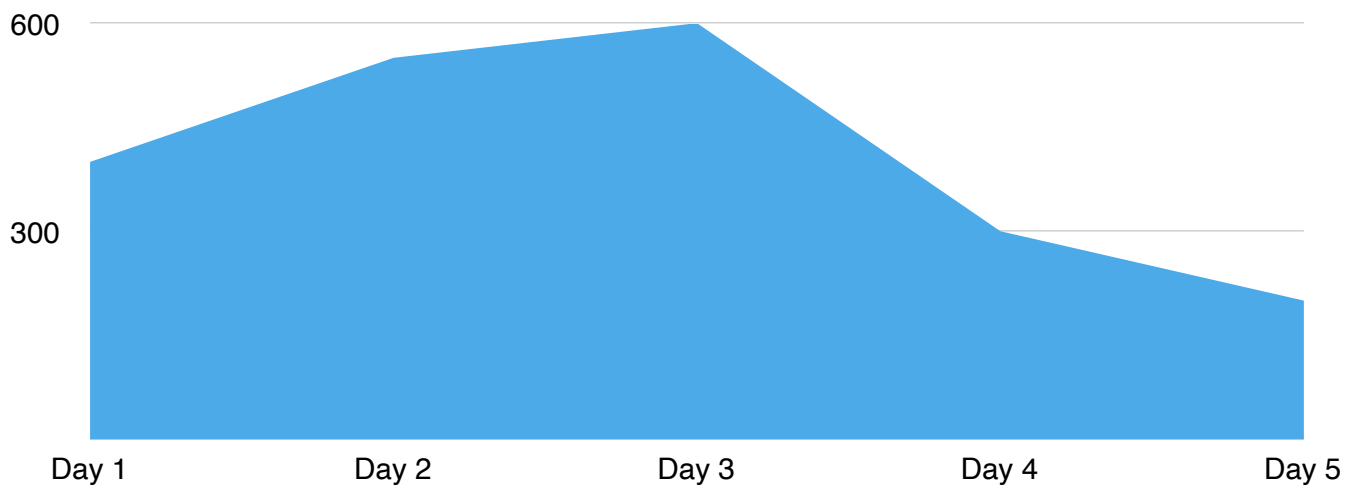

Clean with the 360 S10 robot vacuum cleaner, which uses advanced autonomous AI navigation to find its way around. Moreover, it boasts triple-eye LiDARs that offer 360-degree 3D smart mapping with no blind spots so it never collides with anything. And it can detect more than 100 types of obstacles—even as low as 1 cm. Additionally, measuring only 3.35 inches tall and using a hidden LiDAR sensor, it gets into tight spaces for thorough cleaning.
