

WooBloo SMASH is an All-in-One Entertainment System with a Built-In Smart Projector

This patent-pending smart IoT device comes with an AI-driven voice assistant along with a built-in Full HD smart projector.

Raleigh, USA - WooBloo SMASH is an all-in-one smart home speaker THAT comes with a built-in smart projector. Powered by the latest in AI technology, SMASH can easily control home appliances with its built-in Alexa compatibility. The other smart features include a four-inch LED display, premium 360° surround sound with full-range speakers and passive radiators, and a 1080p projector engine powered by DLP technology that can project up to a 120" display.

The WooBloo SMASH is now available on Indiegogo. The device is also going to be showcased at CES 2021 virtual show floor.

This is a summary of the WooBloo SMASH specs.

- Bluetooth 5.0
- HD Projector
- 300 ANSI Lumens Brightness
- 20W Sound Output
- 802.11b/g, 2.4 GHz WiFi
- Built-In Bluetooth Display
- Echo Noise Cancelation
- Built-In Alexa Voice Assistant
- Far-Field Voice Recognition
- 3-Hour Battery Life for Video

The SMASH device comes with a portable design that can be used at home or at work. It has been designed keeping multiple use cases in mind and this device doubles up as a Smart Speaker resting on your corner table placed on a convenient dock as well as an HD Projector when you want to enjoy watching your favourite content on-the-go. It has an in-built Android OS with many streaming apps pre-loaded on the device along with access to the Aptoide App Store for downloading one's favourite Apps.

The retail price for a WooBloo SMASH unit will be \$699.

The Indiegogo early-bird pledges will start at a discounted price of 35% off.

About WooBloo:

WooBloo is a technology company based in the USA that creates a new generation of connected devices and products that will simplify the smart-home experience and make it more accessible. The company leverages emerging technologies like IoT, voice assistants powered by AI, and gesture recognition to create products that are future-ready to satisfy evolving consumer needs.
